

Hedgehog Class Year 1 Learning Log - Spring Term 2024

Please choose at least **8 activities** from the choice of 12 over the term. You can choose any task each week and as you only have to complete 8 you will be able to have a few weeks in the term when you don't *need* to complete any! Please upload a photo of your completed task to Seesaw.

Many thanks for your support. We can't wait to see what you do!

<p style="text-align: center;">Task 1</p>  <p style="text-align: center;">Draw, paint or collage a wintery picture</p>	<p style="text-align: center;">Task 2</p>  <p style="text-align: center;">Using the list of Y1 spellings attached, choose 6 words you might not be so sure on. Practise them so that you are super confident. Maybe you can write them in multi colours, write them in sentences, make a pairs matching game...etc... to help you learn them. Have fun!</p>	<p style="text-align: center;">Task 3</p>  <p style="text-align: center;">Design a poster showing the number bonds of 10 or the number bonds of 20.</p>
<p style="text-align: center;">Task 4</p>  <p style="text-align: center;">Go ruler crazy! Measure the length or height in centimetres (cm) of a variety of objects in your house. Draw and record the measurements.</p>	<p style="text-align: center;">Task 5</p>  <p style="text-align: center;">Think of (or make up) a journey you may have been on. Write some sentences telling us all about it (How did you travel? Where did you go? How did you feel?...)</p>	<p style="text-align: center;">Task 6</p>  <p style="text-align: center;">Find a short poem. Learn it ready to recite to the class.</p>
<p style="text-align: center;">Task 7</p>  <p style="text-align: center;">Do a careful drawing of a vehicle of your choice. Colour it and label it neatly.</p>	<p style="text-align: center;">Task 8</p>  <p style="text-align: center;">Play with water! Find a selection of different sized containers and predict which holds the most / least? Use a jug to see if your predictions are correct. Draw or photograph your results.</p>	<p style="text-align: center;">Task 9</p>  <p style="text-align: center;">Choose an emergency vehicle. Draw it and write about how it helps people.</p>
<p style="text-align: center;">Task 10</p>  <p style="text-align: center;">Listen to any piece of music. Think about how it makes you feel. Do you like it? What does it make you think of? Draw a picture or write about it.</p>	<p style="text-align: center;">Task 11</p>  <p style="text-align: center;">Create a safety poster for keeping safe as a passenger / pedestrian.</p>	<p style="text-align: center;">Task 12</p>  <p style="text-align: center;">Be a scientist and inventor! Make some transport that can float on water! What materials will you make it out of? Investigate which materials float. How will it move? How can you test it? Have fun exploring!</p>
