### English

Over the next two weeks, we are going to be completing an art project for the Babylon Gallery. Every class has been given an artist, whose style should be inspiration for their work. Our artist is Frida Kahlo.

In English this week, we are going to write a biography about Frida Kahlo's life. Your task today is to start to research Frida Kahlo and make notes about her life. Please make notes in the following areas: Early life; Becoming an artist; Her successes, achievements and key events in her adult life; Her death and legacy. You will have time to finish this in school tomorrow, so today I only expect you to research and make notes for 2 of these areas. Please bring your notes into school tomorrow.

Here are some questions you could research for each area:

### You need research about Frida Kahlo's life. Make notes for these 4 headings:

#### 1. Early Life

When and where was she born? Where did she grow up? What family did she have and what did they do? Were there any major events in her childhood? What were her interests? Where did she go to school?

#### 2. Becoming an artist

When did she start taking art seriously? Were there any events in her life that made her want to be an artist? How was she discovered? What was her style of art?

#### 3. Her successes, achievements and key adult life events

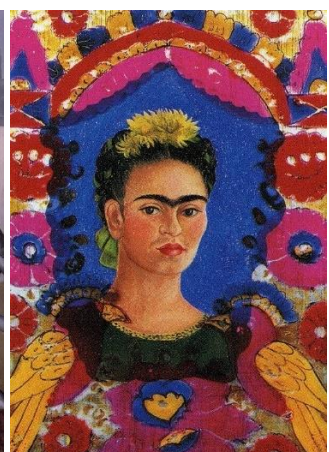

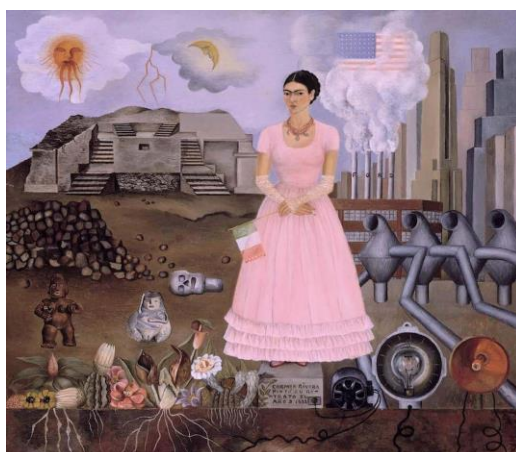

What did she achieve as an artist? Was she popular? What was her work about? Who liked and bought her work? Where did she work? Did she enjoy her life? Were there any major events in her adult life?

#### 4. Her death and legacy

When and how did she die? What is she remembered for? Is her art still popular? What impact does her life and art still have on the world?

Here are some examples of her work:

## Maths

First, please complete 15 minutes of Times Tables Rock Stars. Then, please have a go at these questions to get our maths brains back in gear for the new term. Do these on a piece of paper and bring them in tomorrow. If you're stuck on a question, ask someone at home to go through it with you.

1)  $4309 + 7355$

2)  $20176 - 13426$

3)  $475 \times 4$

4)  $8264 \div 3$

5) Round 82,345 to the nearest a) 10      b) 100      c) 10,000

6) Find all the common factors of 18 and 30

7) Find 3 common multiples of 4 and 10

8)  $6392 \times 73$

9)  $\frac{3}{7} + \frac{4}{7} = ?$

10)  $\frac{1}{5} = \frac{?}{15}$

11) A transport museum has 1243 visitors on Monday morning and another 1387 visitors in the afternoon. On Tuesday 736 fewer visitors go to the museum than who visited on Monday.

12) Mrs Jones was printing the end of year maths test. Each test had 18 pages and 89 pupils were sitting the test. Mrs Jones also needed to print out 12 copies for the teachers and Teaching Assistants who were helping to run the test. How many pieces of paper did Mrs Jones need to put in the photocopier, to make sure she had enough for all the tests?
